

Germany Will Have To Disavow Arabic Case, Says Wilson

President Does Not Share Bernstorff's Confident Opinion That "All Differences are Now Settled."

PRESIDENT MOVES FOR PREPAREDNESS

(By United Press)
Washington, Sept. 16.—Ambassador Bernstorff's "complete understanding" with Secretary Lansing is merely an understanding that the United States will insist on a division of the spoils of the war, and the establishment of more friendly relations than ever before.

This was the white house interpretation today of Bernstorff's "complete understanding" interview in New York regarding a settlement of all American-German differences and the establishment of more friendly relations than ever before.

Before sharing the ambassador's assurance, the President wants to hear direct from the Berlin foreign office. This was the distinct impression given about the white house today.

President Wilson's first personal step toward national defense was taken today when he arranged and appointed a conference for September 28th between himself, chairman Taggart of the house military affairs and Navy Secretary Daniels.

Dogs of War Assume New Meaning Since Great War Started

BY ALICE ROHE
(United Press Staff Correspondent)
Reno, Aug. 22. (By Mail)—Reno is a dog of war—not one of those symbolical dogs of war which typify the destructive onslaught of conflicting enemies. Yet Reno has done some pretty strenuous work against the enemy and as a result he is wearing a medal about his neck suspended by a tricolor ribbon.

Reno saved his master Lieutenant with a hand-to-hand combat in Canada. In consequence he is the pet of the regiment.

Italy's dogs are playing an important part in the fierce struggle which is going on at the frontier. Austria has mobilized her canine soldiers with great success and today when dog meets dog in those mountainous confines of Italy's old provinces there are conflicts which would make dog history for all time.

The Italian war dogs are largely mastiffs. Reno is a big white "mastiff" (mastiff) and is typical of all these faithful four-footed soldiers. The dogs are turned loose, unleashed from the trenches and go forth scouting, beating about in the bush and woods scenting the enemy's approach. When it happens that they run afoul of Austrian dog scouts, doing similar duty, there is warfare of the wildest kind. Fierce and bloody it lasts till one of them has given his life for his country.

The Italian war dogs are perfectly trained. They follow the columns on the march. When a conflict occurs the dogs become half mad with ferocity, baying and jumping and leaping as though they would tear the enemy to pieces.

Reno, following the column one day beside his beloved master, saw a hand-to-hand combat between the Italian officer and an Austrian. The officer was struggling bravely but it was due to Reno that he was saved. Leaping at the Austrian's throat the mastiff dragged him to the ground, piercing his jugular vein with his sharp teeth.

From that day on Reno has never left his lieutenant. He sleeps with him, and eats mess with him. When he is not in service he plays with the soldiers, sporting himself as any dog would who did not have a great world destiny hanging over his head.

The war dogs beside scout duty and actual fighting are of especial use in the Italian campaigning for they carry asks about their necks and in the mountain passes are first aid to many an injured Alpine soldier.

Crescioni Michele who recovered his speech and hearing through the joy of seeing his lieutenant again, and Saturnine Squillacioti Neapolitan, who regained his speech through hearing of a nocturne of Chopin, or for two incidents among the many strange emotional happenings recorded in Italy's warfare.

The Italian temperament seems to be giving daily proof of its actuality. Crescioni, infantryman, was not actually wounded but was thrown to the ground and shocked by a shell bursting near him. He lost his hearing, and speech and was taken to the hospital at Toronto. All known means proved fruitless to restore him to his normal condition. One day it was learned that his lieutenant had been brought to the hospital. Thinking to give him pleasure the infantryman was taken to the officer with whom he had shared the joys and sorrows of warfare. The two threw themselves in each other's arms overcome by emotion. Releasing himself, his face beaming but covered with tears, the unfortunate soldier began to move his lips. With a supreme effort he forced strange unnatural sound from his lips. But next day he regained his speech and hearing.

Austrian Official Denies Part of His Government In Strike Move

Dumba's Recall will be Considered by Government as "Personal Affair" of Ambassador

BY CARL W. ACKERMAN.
(United Press Staff Correspondent)
VIENNA, SEPT. 16.—AUSTRIA HAS NOT INTERFERED AND WILL NOT INTERFERE WITH INTERNAL AFFAIRS IN AMERICA. WE ARE TOO BUSY WITH EUROPEAN AFFAIRS TO BOTHER WITH STRIKES IN THE UNITED STATES. BUT WHATEVER OUR INQUIRY SHOWS WE SHALL CONSIDER THE REQUEST FOR AMBASSADOR DUMBA'S RECALL PURELY PERSONAL. IT CANNOT DISTURB FRIENDLY RELATIONS BETWEEN THE TWO COUNTRIES. THIS STATEMENT WAS MADE TO THE UNITED PRESS TODAY BY A FOREIGN OFFICE OFFICIAL. ONE OF THOSE WHO DETERMINES THE POLICIES OF THE DUAL MONARCHS. HE SAID HE WOULD BE GLAD IF THE STATEMENT WENT TO AMERICA EXPLANATORY OF AUSTRIA'S ATTITUDE. WHETHER A SUCCESSOR WILL BE NAMED AT WASHINGTON AND HOW SOON SUCH AN APPOINTMENT MAY BE MADE HAS NOT BEEN DETERMINED.

CLASS OF 1917 CALLED

(By United Press)
Paris, Sept. 16.—The government today introduced a bill calling to the colors the class of 1917, the date to be fixed by the minister of war. The bill also provides that the class of 1888 hold themselves in readiness for service at the disposition of the war minister until the end of the war.

The government bill, which probably will be passed at once without debate, brings to the colors French youths of eighteen years and men of forty-seven years who are still fit for service to hold themselves in readiness. About 250,000 French boys, many of them now in school, may be ordered to training camps to prepare for service under the provisions of the act.

The suburbs of Arras already partly in ruins, were subjected to heavy bombardment by the German gunners last night. Buildings were sent to the toppling ruins and fires started. French artillery quickly got the range of the German batteries and the bombardment ended. Lively artillery action continued all along the battle front.

"Y" BUILDING IS NEW BRIGHT AS A BUFFALO NICKEL

Secretary Lewis Chases Dirt and Stain In Preparation for Important Season

Physical Director Engaged, and Classes Will Soon be Resumed, Says Hard Working Secretary.

Light has ever been associated with things cheerful and good; and darkness with things sad and evil; so that the advent of improved illumination, both inside and out at the local Y. M. C. A. indicate new life as well as new light.

The first task undertaken by the new secretary, W. I. Lewis, was to clean up, repair and renovate the building. All summer long the air has been full of dust, chips and the odor of paint, but now the final touches are being applied, and all looks bright, clean and cheerful.

The roof has been repaired, all plumbing put into shape, the dormitory floor has been renovated and new furnishings installed. The whole main floor has been painted and papered and a new counter built, the basement has been cleaned and painted and a new concrete flooring put in. New shower baths with needle showers and patent mixers have been installed and other improvements made.

The class room on the second floor has been transformed into a really attractive room and new pictures adorn the walls. Other improvements are under way and a contemplated for a later date.

A new physical director is expected soon and gymnasium classes will be resumed about October 1. A strong programme of activities both old and new have been prepared, and the secretary as well as the board of directors predict a most successful season.

The Clearfield Y. M. C. A. has always been largely a boys institution, but the new programme interesting features for the business men are included. A room is being refurnished and furnished which will be used as a men's club room.

Let the people of our community realize that in this institution, Clearfield has a great asset and let everyone rally to its support. Visit the building, attend the lectures and entertainments and be sure to take out a membership.

VOTE FOR ED. B. CHASE FOR REGISTER AND RECORDER

Ed. B. Chase should receive a solid Republican vote in this section as he is a good clean citizen, and he is making his second campaign for office, an dwill make a good obliging capable official. Vote for him for register and recorder and you will never regret it.

For Register and Recorder vote

Ed. B. Chase

It will be appreciated, and will be a vote for a capable, competent, good citizen.

RE-ELECT DIRECTORS

The stockholders of the Crystal Springs hunting camp held their annual business meeting in the Trust building last night at which time the present directors were re-elected for the ensuing year. The directors are Leslie Stewart, Al Kline, M. S. Mitchell, W. M. Boyce, George M. Rosser and Frank Harris.

DR. COWDRICK IS VICTOR IN SUIT AGAINST N. Y. C.

Judge Bell Gives Him Verdict Of \$875 for Illness Following Hold-up at Crossing

Blocked Crossing Prevents Physician from Proceeding Home, and Rheumatism is the Result.

Civil court was adjourned yesterday at 12 o'clock after a long and hard session in which several cases of importance were disposed of, the most important being that of Dr. Arthur D. Cowdrick versus the N. Y. C. Railroad Co., in which Dr. Cowdrick was suing for \$15,000 damages.

Dr. Cowdrick claims that while he was returning from a professional call to Bald Hill last March, he was detained for an hour at the railroad crossing on the Shawville road in the lower railroad yards by a freight train, and contracted articular rheumatism, from the effects of which he was confined to his bed for a period of ten days. After his serious illness, he claims, he was only able to attend to part of his professional duties for a period of nearly a month.

The case was brought before the court Tuesday morning and continued until Wednesday at noon. The evidence consisted chiefly of professional witnesses as the points on which the jury had to decide the verdict were of a technical nature. The chief witness for the plaintiff was Doctor S. C. Stewart on whose testimony the verdict was granted. As the defendants failed to prove that the doctor did not contract his disease during his delay at the crossing, a verdict awarding the plaintiff \$875 was returned.

SOME POINTED QUESTIONS

Directed to the Republican Voters of Clearfield County at the Present Time

1. Out of all the candidates for nomination on the Republican ticket is there more than one asking for reelection? A. None but the present prothonotary.
2. Why did so many of the young men of Clearfield county drift away from the ranks of the Republican party? A. Because of the feeling that there was a monopoly of the good paying offices of the county and the young man had no chance or consideration.
3. On what grounds can the present prothonotary ask for reelection? Is it on account of his exceptional ability? Is it on account of his loyal service to his party? Is it because he has not made a tidy fortune out of the office already? A. ()
4. When is a man entitled to reelection to an office that pays as well as the office of prothonotary? A. When no other man equally as competent and deserving will accept it.
5. How many of the almost 2000 merchants and clerks in Clearfield county are fully competent to fill the office of prothonotary? A. Probably all of them.
6. How many of the 9600 and more Republicans voters of the county would be glad for one term of the office of prothonotary if it paid them in four years over and above all expenses about \$15000. A. Probably 8999.
7. Because a man is young in years does that disqualify him for efficient service, if he has the education and experience behind him? A. An examination of the history of present day business affairs will show a large percentage of young men who have accomplished great success. This is the day and age of the young man.
8. Would four years service in the offices of one of the most up-to-date business concerns of the country—and one of the largest—better qualify a man for service as prothonotary than say twenty years of conducting a store in one of the villages of Clearfield county? A. It is probable that it would.
9. Does any qualified Republican have a right to be a candidate if he sees fit? A. The law says he does.
10. In casting your vote for the Republican nominee for the office of prothonotary will you vote for the reelection of a man who "wants it all" or for an equally competent man whose platform is unqualifiedly "One Term for One Man"? A. (It should be for the "One Term for One Man.")

CHICKEN AND WAFFLE

There will be a chicken and waffle supper given by the Allen A. M. E. church in the Denning Hall, opposite the postoffice, Friday evening. Supper 50c. S 15-St.

DEMANDS EXPLANATION

London, Sept. 16.—The Bulgarian foreign office has demanded an immediate explanation from Greece and Roumania troops on the Bulgarian frontier, according to a Sofia dispatch to Roumania. This dispatch is the first intimation that troops of the two Balkan states were being massed on the Bulgarian border and is considered significant in view of German hints that Bulgaria may soon cast her lot with the central empire. The Sofia dispatch, however, is unconfirmed from other sources.

A Copenhagen dispatch says German newspapers received there today hinted vaguely at Roumania's early entrance into the war on the side of the allies. They carried scarcely any comment to indicate the reason for Roumania's entrance. The Exchange Telegraph Athens correspondent reported today that the Turkish authorities are preparing to transfer all government and official establishments to the interior of Asia Minor fearing an insurrection in the Turkish army.

NAVY LEAGUE TO PARTICIPATE IN BIG CONFERENCE

National Defense League Meeting in Wash. Next Month Is Most Important One

Winfield Jones' Pan-American Doctrine Interests South and Central American Diplomats.

Washington, Sept. 16.—Announcement was made today that the Navy League will participate in the great Conference on National Defense, which will be held in Washington, October 4-7, under auspices of the Defense League, immediately following the Grand Army of the Republic Encampment.

Tuesday, October 5, has been set aside on the conference program as Navy Day and on this date the Navy League will have complete charge of the program. The league will hold a morning session, to which will be invited all delegates to the Conference on National Defense. It is expected that Secretary Daniels and other prominent citizens will address the session. This will be followed by a navy luncheon at one of the principal Washington hotels, and after the luncheon the afternoon will be devoted to a visit to the gun factory of the Washington navy yard by the delegates to the conference. There will be a big reception by the Woman's Section of the Navy League. Secretary A. H. Dadmun, of the league, is no warring details of Navy Day at the conference and is making up the list of speakers for the occasion. Mr. Dadmun will send out invitations to all members of the Navy League to attend the conference.

The National Rifle Association of America has announced that its members also will participate in the Conference on National Defense. Secretary Albert S. Jones of the association has sent invitations to all members of his organization to attend the conference, where civilian training in the use of the military rifle will be one of the most important matters considered. Assistant Secretary of War Breckenridge, who is head of the government board for the Promotion of Rifle Practice, will represent the National Rifle Association at the conference if his duties at the war department permit, and there will be other speakers on rifle practice.

The National Defense League has been busy for six months with preparations for the Conference on National Defense, which is expected to be the greatest gathering ever held in Washington.

The program has been tentatively arranged for the four day session and the speakers, who will include the foremost men of the country, are now being selected. Senator Dr. Don Eusebio A. Morales, the distinguished minister from Panama to the United States, has accepted an invitation to speak at the conference. One of the most important matters to be discussed at the conference will be the new Pan-American doctrine, recently suggested in the press by Winfield Jones, secretary of the National Defense League. This doctrine which if accepted by the Pan-American republics would result in a defensive and offensive alliance of every nation of the Western Hemisphere with the United States, is arousing much attention in the Pan-American countries and is being endorsed by senators and representatives. Many congressmen are reported to favor a solidarity of the United States with the South and Central American republics, as advocated by the Pan-American doctrine.

Farm Bureau is Now Assured If People Support Committee

Pomona Grange, and Clearfield and DuBois Business Organizations Acting in Accord For Bureau

PETITIONS SOON TO BE CIRCULATED

Every thing points to the success of the joint efforts of the Pomona Grange, the Business Association of DuBois and the Chamber of Commerce of Clearfield to secure a farm bureau for Clearfield county.

Petitions to the president and trustees of State college are being prepared by the leaders of the movement and will be circulated shortly for the signatures of at least 300 citizens of the county. Upon its completion this petition will be filed with proper authorities and the necessary forces put in operation which it is hoped will secure the bureau for the county.

A permanent farm bureau organization was perfected at a recent meeting of the joint committees appointed by the Pomona Grange, the Business Association, and the Chamber of Commerce of which Peter Gearhart is president; Charles Goodlander, D. H. Waits and D. B. Lee, vice presidents; H. E. Bodine, secretary; L. E. Weber, treasurer and a board of directors consisting of Peter Gearhart, T. L. Way, E. B. Billotte, W. C. Langsford, G. W. Jacob, H. E. Owens and M. L. McCreight.

At the same meeting the Pomona Grange committee reported that the Grange was strongly in favor of the establishment of the bureau, and would cooperate in every way with the general committee to secure its location.

If the petition of Clearfield county is favorably considered by the authorities it will be July 1, 1916, before an appropriation from the federal government can be made available, as it would have to be made at the coming session of congress for the next fiscal year.

At present there are 21 counties in the state in which farm bureaus have been established. They are supported by federal and state funds, and there are now pending applications from 13 additional counties. For this reason it is considered important that Clearfield promptly exert every effort to secure favorable consideration.

Grave Allegations Against Britain Are Made by Shippers

CLEARFIELD FIREMEN PAY HIGH TRIBUTE TO KLINE

Endorse Him For County Treasurer at Recent Meeting

Al Kline, the popular Clearfield business man, who is a candidate for the office of county treasurer on the Republican ticket, received a warm endorsement from the Firemen of Clearfield at a recent meeting of that organization. Recognizing his sterling worth, the Firemen pledged themselves to vote for Mr. Kline at the primaries, and to give him their undivided support should he win the nomination next week. This endorsement was entirely unsolicited by Mr. Kline, and is a distinct compliment to him which may serve as a guide to the voters of the county who may want to know how he stands in his own home town. Mr. Kline is the only one of the 55 candidates now in the field who has been similarly honored.

Mr. Kline stands for a straight business administration of the county's affairs. A successful business man himself, he is qualified in every respect for the position to which he aspires, and will render efficient honest and loyal service to the county if he is elected.

A DIFFERENT STORY

The story of the clash between an automobile driven by Gerald Wallace and a bicycle ridden by Preston Knight, which was printed in yesterday's paper was in error according to Wallace's story of the affair. He says the bicycle ran into the back wheels of the automobile instead of the automobile, running into the front wheel of the bicycle.

W. G. Brown, candidate for county treasurer, Republican ticket, believes the people should settle the saloon question and not the politician. * * *

Russians Defeat Germans In Great Cavalry Engagement, Says London

Important Railway Line Again In Hands of Russians, But Germans Are on Attack

(By United Press)
London, Sept. 16.—A German cavalry force that reached the Vilna-Petrograd railway has been driven back against the Dvina river position and the railway line from Dvinsk to Vilna is again in the hands of the Russians, according to dispatches reaching Petrograd today. Air scouts, however, reported that the Germans under General von Bulow have received reinforcements and that large bodies of infantry are again approaching the railway. The Russians are concentrating a big battle is believed imminent. True, Says Seattle Editor.

BY BOND P. GEDDES
(United Press Staff Correspondent)

Washington, Sept. 16.—Radical
changes in the type of new subma-
rines to be built for Uncle Sam's navy
are being worked out by the chief
naval constructor. Navy officials at-
tended today that some new wrinkles
in submarine construction probably would be
adopted when Congress authorizes the
new fleet of undersea craft
which will represent the latest
thought in such construction.

Special attention is being given,
Secretary Daniels states, to the ques-
tion of submarine construction. A
corps of experts at home and abroad
are collecting information to be as-
similated in the next new U. S. sub-
marines.

Electric propulsion is the latest
submarine, according to the present
determination of the naval construc-
tors. It is probable that electric
motors may be used exclusively in the
future. Naval authorities also con-
template diverting the present fleet of

submarines of gas engines and sub-
stituting electric power.

One difficulty in the way of U. S.
naval progress in building submarines
is the "patent monopoly" which con-
fines this government to one type of
submersible. This is the Lake type.
While other types with some most
desirable features are being built,
Secretary Daniels says the govern-
ment never has been able to reach
satisfactory terms with patentees of
other submarines than the Lake vari-
ety. Negotiations are in progress,
however, by which the government
may be able to adopt some of the
more desirable features of other pat-
terns.

The government would not be bar-
red from using the other submarine
patents in case the U. S. became in-
volved in war, however, according to
Secretary Daniels. He admitted that
the government would not hesitate to
appropriate the submarine patents
and use them in building its own
submarines in time of war. Compensa-
tion would be given the patentees,
of course, or they could resort to the
courts—but after the government had
received the benefit of submersible
patents. The government, according
to Secretary Daniels, would not hesi-
tate to adopt such a policy, as a mat-
ter of defense in a time of national
peril, without regard to the contri-
butors' patent rights.

Secretary Daniels hopes that con-
gress will eventually authorize con-
struction by the government itself of
all of its submarines. It is now
building some on the Pacific coast, the
only government plant at present
equipped for submarine construction.
The use of the oil burning type.

"Spurring up" private contractors
on government submarine contracts is
another innovation promised by the
secretary. He will insist that con-
tracts given private concerns stipulate

quicker delivery. The secretary be-
lieves that in the past contractors
have been slow about completing the
government craft. He cites the in-
stance of the ill-fated F-4, which sank
last March outside Honolulu harbor.
This boat was only two years old,
but five years elapsed before Congress
authorized her construction and the
date, in 1913, when she was delivered
to the navy.

On the other hand, the Fore River
Construction Company, of Massachu-
setts, has just completed ten electric
submersibles for one of the allies in
the record time of eight months. They
were ordered in January and are now
being rushed to the ship yards at
Quincy, Mass. By agreement with
Charles M. Schwab, who took the or-
der for one of the allies, the boats
will be held in American waters until
after the war.

To The Republican Voters:

Some weeks prior to the time for
filing petitions for the nomination for
the office of prothonotary some of
my friends approached me with the
proposition that I be a candidate for
the office. In submitting the propo-
sition to me it was pointed out that
there was a strong, and growing sen-
timent in Clearfield county against
the two term proposition for this of-
fice. With no malice toward any man,
no revenge to be sought for any per-
sonal or political offense, I consented
to make the campaign after consulta-
tion with many active workers in the
party. From that time on I have
night and day endeavored to see as
many of the voters as was possible.

In making my campaign I have re-
frained absolutely from engaging in
personal attacks on my opponent. His
political mistakes are no business of
mine, his family relations do not in
any manner concern me. Neither do
his religious inclinations in any way
direct my attitude towards him. That
is his business, as my family affairs
and religious preferences are mine.
For the information of those voters
who do not personally know me I de-
sire at this time and in this manner
to say that I am a member of the
Presbyterian church and Sunday
school of Clearfield, and have been
for years. I am not bigotted in my
religious beliefs. Our constitution
grants freedom of religious belief as
one of our fundamental rights. I ex-
ercise mine and yield the same right
to everyone else.

I submit my candidacy to your con-
sideration and ask for your vote on
the following propositions: I am a
Republican and always have been. I
have had a school education which is
equal of the average business man
and along some lines such as account-
ing, etc. have taken special courses.
I have worked in the offices of one
of the largest and best organized
business concerns in the world.
I make this campaign on the absolute
pledge that if elected I will not under
any circumstances ask for or accept
a second term to the office.

J. M. GALLAHER,
Republican Candidate for Prothono-
tary.

LOCAL CONTRACTOR ROBBED BY "DIP" AT PHILIPSBURG

George Woods Victim of Slick Artist
—Now Minus \$135.

George Woods a contractor of East
End was robbed at the Philipsburg
station Monday evening, while wait-
ing for the train which arrives in
Clearfield about seven o'clock. Mr.
Woods had \$130 dollars in his pocket
with which he was to pay some of his
workmen at the Harbison-Walker
brick yard at Wallaceton.

He left Clearfield on the 1:15 train
and went to Philipsburg expecting to
return to Wallaceton that evening.
While waiting for his train, his purse
containing the money was taken from
his pocket. No trace of the thief has
been discovered yet.

WEDDING CAKE 35 YEARS OLD.

Cleveland, Sept. 16.—A. D. New-
comb and his wife have what is believed to
be the oldest wedding cake in exist-
ence. It was made for their wedding
thirty-five years ago, looked so pretty
that they decided never to cut it.

ONE WEEK ONLY

The Best Range at the Right Price
The Aluminum Cooking Ware FREE

ONE CENT A MEAL FOR ONE YEAR.

In almost every house there are practically
one thousand meals a year prepared on the
stove. Many people hesitate about paying five
or ten dollars more to secure a reliable range—
one that will cook these thousand meals a year
with the least trouble and at the lowest cost. If
you should add one cent to the cost of every
meal for the first year only, you would soon
make up the difference between the cheap range
and the range that will last a lifetime.

Suppose your cheap range uses one cent's
more of fuel in cooking each meal, or only three
cents' worth more a day. In one year this range
has cost you ten dollars extra—ten dollars more
for fuel than the better range. Every year
means that much more money burned up.

Suppose the better range does cost ten dol-
lars more at first than the cheap one. The ex-
tra cost is nothing—it amounts to only one cent
a meal. It will save you one cent a meal in fuel
alone. In one year it will save the extra cost,
and in ten years it will save you one hundred
dollars, not counting what you save missing big
repair bills.

You can open a bank account in your kitchen
by buying a South Bend Malleable Range.

An expert demonstrator from the factory
will be at our store for one week. He will tell
you about the Patented Aluminum-Fused Cop-
per-Bearing Flues. And prove to you why it is
the best range made.

JAPANESE TRY TO SMUGGLE SELVES INTO WASHINGTON

Party of Six Was Exciting Time
Before Immigration Officers
Take Them in Tow

Picture Bride Leading Popularity in
Japan—New Photography To
Test, Navy Seaside Editor

BY BOND P. GEDDES
(United Press Staff Correspondent)

Washington, Sept. 16.—National changes in the type of new submarines to be built for Uncle Sam's navy are being worked out by the chief naval constructor. Navy officials admitted today that some new wrinkles in submarine building probably would be adopted when Congress authorizes the proposed new fleet of undersea craft which will represent the latest thought in such construction.

Special attention is being given, Secretary Daniels states, to the question of submarine construction. A corps of experts at home and abroad are conducting a comparative study of the latest in the new U. S. submarines.

Electric propulsion is the latest in submarine construction, according to the present determination of the naval constructor. It is probable that electric motors will be used in the new submarines. Naval authorities are contemplating diverting the present fleet of

submarines of gas engines and substituting electric power.

One difficulty in the way of U. S. naval progress in building submarines is the "patent monopoly" which confines this government to one type of submersible. This is the Lake type. While other types with some most desirable features are being built, Secretary Daniels says the government never has been able to reach satisfactory terms with patentees of other submarines than the Lake variety. Negotiations are in progress, however, by which the government may be able to adopt some of the more desirable features of other patterns.

The government would not be barred from using the other submarine patents in case the U. S. became involved in war, however, according to Secretary Daniels. He admitted that the government would not hesitate to appropriate the submarine patents and use them in building its own submarines in time of war. Compensation would be given the patentees, of course, or they could resort to the courts—but after the government has received the benefit of submersible patents. The government, according to Secretary Daniels, would not hesitate to adopt such a policy, as a matter of defense in a time of national peril, without regard to the contract and patent rights of patentees.

Secretary Daniels hopes that Congress will eventually authorize construction by the government itself of all of its submarines. It is now building some on the Pacific coast, the only government plant at present equipped for submarine construction. The use of the oil burning type.

"By gosh," private contractors on government submarine contracts is another innovation promised by the secretary. He will insist that contracts given private concerns stipulate

quicker delivery. The secretary believes that in the past contractors have been slow about completing the government craft. He cites the instance of the ill-fated P-4, which sank last March outside Honolulu harbor. This boat was only two years old, having been commissioned in 1913, but five years elapsed before Congress authorized her construction and the date, in 1912, when she was delivered to the navy.

ONE WEEK ONLY

The Best Range at the Right Price
The Aluminum Cooking Ware FREE

ONE CENT A MEAL FOR ONE YEAR.

In almost every house there are practically one thousand meals a year prepared on the stove. Many people hesitate about paying five or ten dollars more to secure a reliable range—one that will cook these thousand meals a year with the least trouble and at the lowest cost. If you should add one cent to the cost of every meal for the first year only, you would soon make up the difference between the cheap range and the range that will last a lifetime.

Suppose your cheap range uses one cent's more of fuel in cooking each meal, or only three cents' worth more a day. In one year this range has cost you ten dollars extra—ten dollars more for fuel than the better range. Every year means that much more money burned up.

Suppose the better range does cost ten dollars more at first than the cheap one. The extra cost is nothing—it amounts to only one cent a meal. It will save you one cent a meal in fuel alone. In one year it will save the extra cost, and in ten years it will save you one hundred dollars, not counting what you save missing big repair bills.

You can open a bank account in your kitchen by buying a South Bend Malleable Range.

An expert demonstrator from the factory will be at our store for one week. He will tell you about the Patented Aluminum-Fused Copper-Bearing Flues. And prove to you why it is the best range made.

FOR THE EN

Ralston Health Shoes the great comfort shoes for all men. Every pair warranted to give satisfaction. The word from the Ralston factory is the customer must be satisfied.

LEITZINGER BROTHERS.

Germany Will Have To Disavow Arabic Case, Says Wilson

President Does Not Share Bernstorff's Confident Opinion That "All Differences are Now Settled."

PRESIDENT MOVES FOR PREPAREDNESS

(By United Press)
Washington, Sept. 16.—Ambassador Bernstorff's "complete understanding" with Secretary Lansing is merely an understanding that the United States will insist on a demand of the repudiation of the Arabic case as the only condition upon which diplomatic intercourse will be continued.

This was the white house interpretation today of Bernstorff's "complete understanding" interview in New York regarding a settlement of all American-German differences and the establishment of more friendly relations than ever before.

Before sharing the ambassador's assurance, the President wants to hear direct from the Berlin foreign office. This was the distinct impression given about the white house today.

President Wilson's first personal step toward national defense was taken today when he arranged and appointed a conference for September 28th between himself, chairman Taggart of the house military affairs and Navy Secretary Daniels.

taken today when he arranged and appointed a conference for September 28th between himself, chairman Taggart of the house military affairs and Navy Secretary Daniels.

TURKS RENEW MASSACRES

(By United Press)
Constantinople, via Currier to Serbia, Sept. 16.—The Turkish troops resumed their methodical extermination of Armenians in all provinces of the empire. Frightful scenes are being enacted. Women are being outraged or sold in the slavery market, males are being massacred, and whole communities are being driven off into the desert countries. Nearly 200,000 have abandoned their home and are fleeing to the woods. They are pursued by bands which are striking down all stragglers and carrying off women who fall exhausted by the wayside.

Dogs of War Assume New Meaning Since Great War Started

BY ALICE ROHE
(United Press Staff Correspondent)
Reno, Aug. 22. (By Mail)—Reno is a real dog of war—not one of those symbolical dogs of war which typify the destructive onslaught of conflicting enemies. Yet Reno has done some pretty strenuous work against the enemy and as a result he is wearing a medal about his neck suspended by a tricolor ribbon.

Reno saved his master Lieutenant with a hand-to-hand combat in Canada. In consequence he is the pet of the regiment.

Italy's dogs are playing an important part in the fierce struggle which is going on at the frontier. Austria has mobilized her canine soldiers with great success and today when dog meets dog in those mountainous confines of Italy's old provinces there are conflicts which would make dog history for all time.

The Italian war dogs are largely mastiffs. Reno is a big white "mastiff" (mastiff) and is typical of all these faithful four-footed soldiers. The dogs are turned loose, unleashed from the trenches and go forth scouting, beating about in the bush and woods scenting the enemy's approach. When it happens that they run afoul of Austrian dog scouts, doing similar duty, there is warfare of the wildest kind. Fierce and bloody it lasts till one of them has given his life for his country.

The Italian war dogs are perfectly trained. They follow the columns on the march. When a conflict occurs the dogs become half mad with ferocity, baying and jumping and leaping as though they would tear the enemy to pieces.

Reno, following the column one day beside his beloved master, saw a hand-to-hand combat between the Italian officer and an Austrian. The officer was struggling bravely but it was due to Reno that he was saved. Leaping at the Austrian's throat the mastiff dragged him to the ground, piercing his jugular vein with his sharp teeth.

From that day on Reno has never left his lieutenant. He sleeps with him, and eats mess with him. When he is not in service he plays with the soldiers, sporting himself as any dog would who did not have a great world destiny hanging over his head.

The war dogs beside scout duty and actual fighting are of especial use in the Italian campaigning for they carry asks about their necks and in the mountain passes are first aid to many an injured Alpine soldier.

Crescioni Michele who recovered his speech and hearing through the joy of seeing his lieutenant again, and Saturnine Squillacioti Neapolitan, who regained his speech through hearing of a nocturne of Chopin, or for two incidents among the many strange emotional happenings recorded in Italy's warfare.

The Italian temperament seems to be giving daily proof of its actuality. Crescioni, infantryman, was not actually wounded but was thrown to the ground and shocked by a shell bursting near him. He lost his hearing and speech and was taken to the hospital at Toronto. All known means proved fruitless to restore him to his normal condition. One day it was learned that his lieutenant had been brought to the hospital. Thinking to give him pleasure the infantryman was taken to the officer with whom he had shared the joys and sorrows of warfare. The two threw themselves in each other's arms overcome by emotion. Releasing himself, his face beaming but covered with tears, the unfortunate soldier began to move his lips. With a supreme effort he forced strange unnatural sound from his lips. But next day he regained his speech and hearing.

Austrian Official Denies Part of His Government In Strike Move

Dumba's Recall will be Considered by Government as "Personal Affair" of Ambassador

BY CARL W. ACKERMAN.
United Press Staff Correspondent
VIENNA, SEPT. 16.—AUSTRIA HAS NOT INTERFERED AND WILL NOT INTERFERE WITH INTERNAL AFFAIRS IN AMERICA. WE ARE TOO BUSY WITH EUROPEAN AFFAIRS TO BOTHER WITH STRIKES IN THE UNITED STATES. BUT WHATEVER OUR INQUIRY SHOWS WE SHALL CONSIDER THE REQUEST FOR AMBASSADOR DUMBA'S RECALL PURELY PERSONAL. IT CANNOT DISTURB FRIENDLY RELATIONS BETWEEN THE TWO COUNTRIES. THIS STATEMENT WAS MADE TO THE UNITED PRESS TODAY BY A FOREIGN OFFICE OFFICIAL. ONE OF THOSE WHO DETERMINES THE POLICIES OF THE DUAL MONARCHS. HE SAID HE WOULD BE GLAD IF THE STATEMENT WENT TO AMERICA EXPLANATORY OF AUSTRIA'S ATTITUDE. WHETHER A SUCCESSOR WILL BE NAMED AT WASHINGTON AND HOW SOON SUCH AN APPOINTMENT MAY BE MADE HAS NOT BEEN DETERMINED.

CLASS OF 1917 CALLED

(By United Press)
Paris, Sept. 16.—The government today introduced a bill calling to the colors the class of 1917, the date to be fixed by the minister of war. The bill also provides that the class of 1888 hold themselves in readiness for service at the disposition of the war minister until the end of the war.

The government bill, which probably will be passed at once without debate, brings to the colors French youths of eighteen years and men of forty-seven years who are still fit for service to hold themselves in readiness. About 250,000 French boys, many of them now in school, may be ordered to training camps to prepare for service under the provisions of the act.

The suburbs of Arras already partly in ruins, were subjected to heavy bombardment by the German gunners last night. Buildings were sent to the toppling ruins and fires started. French artillery quickly got the range of the German batteries and the bombardment ended. Lively artillery action continued all along the battle front.

"Y" BUILDING IS NEW BRIGHT AS A BUFFALO NICKEL

Secretary Lewis Chases Dirt and Stain In Preparation for Important Season

Physical Director Engaged, and Classes Will Soon be Resumed, Says Hard Working Secretary.

Light has ever been associated with things cheerful and good; and darkness with things sad and evil; so that the advent of improved illumination, both inside and out at the local Y. M. C. A. indicate new life as well as new light.

The first task undertaken by the new secretary, W. I. Lewis, was to clean up, repai and renovate the building. All summer long the air has been full of dust, chips and the odor of paint, but now the final touches are being applied, and all looks bright, clean and cheerful.

The roof has been repaired, all plumbing put into shape, the dormitory floor has been renovated and new furnishings installed. The whole main floor has been painted and papered and a new counter built, the basement has been cleaned and painted and a new concrete flooring put in. New shower baths with needle showers and patent mizers have been installed and other improvements made.

The class room on the second floor has been transformed into a really attractive room and new pictures adorn the walls. Other improvements are under way and contemplated for a later date.

A new physical director is expected soon and gymnasium classes will be resumed about October 1. A strong programme of activities both old and new have been prepared, and the secretary as well as the board of directors predict a most successful season.

The Clearfield Y. M. C. A. has always been largely a boys institution, but the new programme interesting features for the business men are included. A room is being refurnished and furnished which will be used as a men's club room.

Let the people of our community realize that in this institution, Clearfield has a great asset and let everyone rally to its support. Visit the building, attend the lectures and entertainments and be sure to take out a membership.

(Political Advertisement)

VOTE FOR ED. B. CHASE FOR REGISTER AND RECORDER

Ed. B. Chase should receive a solid Republican vote in this section as he is a good clean citizen, and he is making his second campaign for office, an dwill make a good obliging capable official. Vote for him for register and recorder and you will never regret it.

For Register and Recorder vote

Ed. B. Chase

It will be appreciated, and will be a vote for a capable, competent, good citizen.

RE-ELECT DIRECTORS

The stockholders of the Crystal Springs hunting camp held their annual business meeting in the Trust building last night at which time the present directors were re-elected for the ensuing year. The directors are Leslie Stewart, Al Kline, M. S. Mitchell, W. M. Boyce, George M. Rosser and Frank Harris.

DR. COWDRICK IS VICTOR IN SUIT AGAINST N. Y. C.

Judge Bell Gives Him Verdict Of \$875 for Illness Following Hold-up at Crossing

Blocked Crossing Prevents Physician from Proceeding Home, and Rheumatism is the Result.

Civil court was adjourned yesterday at 12 o'clock after a long and hard session in which several cases of importance were disposed of, the most important being that of Dr. Arthur D. Cowdrick versus the N. Y. C. Railroad Co., in which Dr. Cowdrick was suing for \$15,000 damages.

Dr. Cowdrick claims that while he was returning from a professional call to Bald Hill last March, he was detained for an hour at the railroad crossing on the Shawville road in the lower railroad yards by a freight train, and contracted articular rheumatism, from the effects of which he was confined to his bed for a period of ten days. After his serious illness, he claims, he was only able to attend to part of his professional duties for a period of nearly a month.

The case was brought before the court Tuesday morning and continued until Wednesday at noon. The evidence consisted chiefly of professional witnesses as the points on which the jury had to decide the verdict were of a technical nature. The chief witness for the plaintiff was Doctor S. C. Stewart on whose testimony the verdict was granted. As the defendants failed to prove that the doctor did not contract his disease during his delay at the crossing, a verdict awarding the plaintiff \$875 was returned.

SOME POINTED QUESTIONS

Directed to the Republican Voters of Clearfield County at the Present Time

1. Out of all the candidates for nomination on the Republican ticket is there more than one asking for reelection? A. None but the present prothonotary.

2. Why did so many of the young men of Clearfield county drift away from the ranks of the Republican party? A. Because of the feeling that there was a monopoly of the good paying offices of the county and the young man had no chance or consideration.

3. On what grounds can the present prothonotary ask for reelection? Is it on account of his exceptional ability? Is it on account of his loyal service to his party? Is it because he has not made a tidy fortune out of the office already? A. ()

4. When is a man entitled to reelection to an office that pays as well as the office of prothonotary? A. When no other man equally as competent and deserving will accept it.

5. How many of the almost 2000 merchants and clerks in Clearfield county are fully competent to fill the office of prothonotary? A. Probably all of them.

6. How many of the 9600 and more Republicans voters of the county would be glad for one term of the office of prothonotary if it paid them in four years over and above all expenses about \$15000. A. Probably 8999.

7. Because a man is young in years does that disqualify him for efficient service, if he has the education and experience behind him? A. An examination of the history of present day business affairs will show a large percentage of young men who have accomplished great success. This is the day and age of the young man.

8. Would four years service in the offices of one of the most up-to-date business concerns of the country—and one of the largest—better qualify a man for service as prothonotary than say twenty years of conducting a store in one of the villages of Clearfield county? A. It is probable that it would.

9. Does any qualified Republican have a right to be a candidate if he sees fit? A. The law says he does.

10. In casting your vote for the Republican nominee for the office of prothonotary will you vote for the reelection of a man who "wants it all" or for an equally competent man whose platform is unqualifiedly "One Term for One Man"? A. (It should be for the "One Term for One Man.")

CHICKEN AND WAFFLE

There will be a chicken and waffle supper given by the Allen A. M. E. church in the Denning Hall, opposite the postoffice, Friday evening. Supper 50c. S 15-St.

DEMANDS EXPLANATION

London, Sept. 16.—The Bulgarian foreign office has demanded an immediate explanation from Greece and Roumania troops on the Bulgarian frontier, according to a Sofia dispatch to Roumania. This dispatch is the first intimation that troops of the two Balkan states were being massed on the Bulgarian border and is considered significant in view of German hints that Bulgaria may soon cast her lot with the central empire. The Sofia dispatch, however, is unconfirmed from other sources.

A Copenhagen dispatch says German newspapers received there today hinted vaguely at Roumania's early entrance into the war on the side of the allies. They carried scarcely any comment to indicate the reason for Roumania's entrance. The Exchange Telegraph Athens correspondent reported today that the Turkish authorities are preparing to transfer all government and official establishments to the interior of Asia Minor fearing an insurrection in the Turkish army.

NAVY LEAGUE TO PARTICIPATE IN BIG CONFERENCE

National Defense League Meeting in Wash. Next Month Is Most Important One

Winfield Jones' Pan-American Doctrine Interests South and Central American Diplomats.

Washington, Sept. 16.—Announcement was made today that the Navy League will participate in the great Conference on National Defense, which will be held in Washington, October 4-7, under auspices of the Defense League, immediately following the Grand Army of the Republic Encampment.

Tuesday, October 5, has been set aside on the conference program as Navy Day and on this date the Navy League will have complete charge of the program. The league will hold a morning session, to which will be invited all delegates to the Conference on National Defense. It is expected that Secretary Daniels and other prominent citizens will address the session. This will be followed by a navy luncheon at one of the principal Washington hotels, and after the luncheon the afternoon will be devoted to a visit to the gun factory of the Washington navy yard by the delegates to the conference. There will be a big reception by the Woman's Section of the Navy League. Secretary A. H. Dadmun, of the league, is no warring details of Navy Day at the conference and is making up the list of speakers for the occasion. Mr. Dadmun will send out invitations to all members of the Navy League to attend the conference.

The National Rifle Association of America has announced that its members also will participate in the Conference on National Defense. Secretary Albert S. Jones of the association has sent invitations to all members of his organization to attend the conference, where civilian training in the use of the military rifle will be one of the most important matters considered. Assistant Secretary of War Breckenridge, who is head of the government board for the Promotion of Rifle Practice, will represent the National Rifle Association at the conference if his duties at the war department permit, and there will be other speakers on rifle practice.

The National Defense League has been busy for six months with preparations for the Conference on National Defense, which is expected to be the greatest gathering ever held in Washington. The program has been tentatively arranged for the four day session and the speakers, who will include the foremost men of the country, are now being selected. Senator Dr. Don Eusebio A. Morales, the distinguished minister from Panama to the United States, has accepted an invitation to speak at the conference. One of the most important matters to be discussed at the conference will be the new Pan-American doctrine, recently suggested in the press by Winfield Jones, secretary of the National Defense League. This doctrine which if accepted by the Pan-American republics would result in a defensive and offensive alliance of every nation of the Western Hemisphere with the United States, is arousing much attention in the Pan-American countries and is being endorsed by senators and representatives. Many congressmen are reported to favor a solidarity of the United States with the South and Central American republics, as advocated by the Pan-American doctrine.

Farm Bureau is Now Assured If People Support Committee

Pomona Grange, and Clearfield and DuBois Business Organizations Acting in Accord For Bureau

PETITIONS SOON TO BE CIRCULATED

Every thing points to the success of the joint efforts of the Pomona Grange, the Business Association of DuBois and the Chamber of Commerce of Clearfield to secure a farm bureau for Clearfield county.

Petitions to the president and trustees of State college are being prepared by the leaders of the movement and will be circulated shortly for the signatures of at least 300 citizens of the county. Upon its completion this petition will be filed with proper authorities and the necessary forces put in operation which it is hoped will secure the bureau for the county.

A permanent farm bureau organization was perfected at a recent meeting of the joint committees appointed by the Pomona Grange, the Business Association, and the Chamber of Commerce of which Peter Gearhart is president; Charles Goodlander, D. H. Waits and D. B. Lee, vice presidents; H. E. Bodine, secretary; L. E. Weber, treasurer and a board of directors consisting of Peter Gearhart, T. L. Way, E. B. Billotte, W. C. Langsford, G. W. Jacob, H. E. Owens and M. L. McCreight.

At the same meeting the Pomona Grange committee reported that the Grange was strongly in favor of the establishment of the bureau, and would cooperate in every way with the general committee to secure its location.

If the petition of Clearfield county is favorably considered by the authorities it will be July 1, 1916, before an appropriation from the federal government can be made available, as it would have to be made at the coming session of congress for the next fiscal year.

At present there are 21 counties in the state in which farm bureaus have been established. They are supported by federal and state funds, and there are now pending applications from 13 additional counties. For this reason it is considered important that Clearfield promptly exert every effort to secure favorable consideration.

Grave Allegations Against Britain Are Made by Shippers

CLEARFIELD FIREMEN PAY HIGH TRIBUTE TO KLINE

Endorse Him For County Treasurer at Recent Meeting

Al Kline, the popular Clearfield business man, who is a candidate for the office of county treasurer on the Republican ticket, received a warm endorsement from the Firemen of Clearfield at a recent meeting of that organization. Recognizing his sterling worth, the Firemen pledged themselves to vote for Mr. Kline at the primaries, and to give him their undivided support should he win the nomination next week. This endorsement was entirely unsolicited by Mr. Kline, and is a distinct compliment to him which may serve as a guide to the voters of the county who may want to know how he stands in his own home town. Mr. Kline is the only one of the 55 candidates now in the field who has been similarly honored.

Mr. Kline stands for a straight business administration of the county's affairs. A successful business man himself, he is qualified in every respect for the position to which he aspires, and will render efficient honest and loyal service to the county if he is elected.

A DIFFERENT STORY

The story of the clash between an automobile driven by Gerald Wallace and a bicycle ridden by Preston Knight, which was printed in yesterday's paper was in error according to Wallace's story of the affair. He says the bicycle ran into the back wheels of the automobile instead of the automobile, running into the front wheel of the bicycle.

W. G. Brown, candidate for county treasurer, Republican ticket, believes the people should settle the saloon question and not the politician. * * *

(By United Press)

London Sept. 16.—Valuable cargoes on several ships bound from America to Copenhagen were seized by the admiralty prize court in a judgment handed down today. In delivering the judgment, Sir Samuel Evans charged that a number of American shippers had attempted to evade the British blockade through false manifests and warned the nithat their acts would weigh heavily against them in the future. Sir Samuel said that it was very plain that some cargoes consigned by American shippers to Copenhagen were intended for Germany. Among the claims allowed by the prize court was one filed by the Cudary company of Chicago. Claims of other American packers, including Swift, Armour, Morris and Sutscher, were disallowed.

Washington, Sept. 16.—The Anglo-American situation was temporarily more urgent today than the German-American difficulties. The abrupt note th administration has yet addressed to London was produced in well informed circles, pending an investigation by Consul Skinner to prove the truth of American importers charges that the English are obtaining modification of the order in council which have been denied to Americans.

FIFTY CANDIDATES AT WISCONSIN.

(By United Press)

Madison, Sept. 16.—Fifty candidates for the University of Wisconsin foot ball team met here today to prepare for the opening of the conference practice season September 20.

For fourteen years W. C. Brown has been engaged in building and loan work and banking. He is well prepared for the office of county treasurer. Vote for Brown. * * *

Russians Defeat Germans In Great Cavalry Engagement, Says London

Important Railway Line Again In Hands of Russians, But Germans Are on Attack

(By United Press)

London, Sept. 16.—A German cavalry force that reached the Vilna-Petrograd railway has been driven back against the Dwina river positions and the railway line from Dvinsk to Vilna is again in the hands of the Russians, according to dispatches reaching Petrograd today. Air scouts, however, reported that the Germans under General von Bulow have received reinforcements and that large bodies of infantry are again approaching the railway. The Russians are concentrating and a big battle is believed imminent. The German attack against the Dwina river positions and the railway line from Dvinsk to Vilna is again in the hands of the Russians, according to dispatches reaching Petrograd today. Air scouts, however, reported that the Germans under General von Bulow have received reinforcements and that large bodies of infantry are again approaching the railway. BY BOND P. GEDDES
(United Press Staff Correspondent)

Washington, Sept. 16.—Radical
changes in the type of new subma-
rines to be built for Uncle Sam's navy
are being worked out by the chief
naval constructor. Navy officials at-
tended today that some new wrinkles
in submarine construction probably would be
adopted when Congress authorizes the
new fleet of undersea craft
which will represent the latest
thought in such construction.

Special attention is being given,
Secretary Daniels states, to the ques-
tion of submarine construction. A
corps of experts at home and abroad
are collecting information to be as-
similated in the next new U. S. sub-
marines.

Electric propulsion is the latest
submarine, according to the present
determination of the naval construc-
tors. It is probable that electric
motors may be used exclusively in the
future. Naval authorities also con-
template diverting the present fleet of

submarines of gas engines and sub-
stituting electric power.

One difficulty in the way of U. S.
naval progress in building submarines
is the "patent monopoly" which con-
fines this government to one type of
submersible. This is the Lake type.
While other types with some most
desirable features are being built,
Secretary Daniels says the govern-
ment never has been able to reach
satisfactory terms with patentees of
other submarines than the Lake vari-
ety. Negotiations are in progress,
however, by which the government
may be able to adopt some of the
more desirable features of other pat-
terns.

The government would not be bar-
red from using the other submarine
patents in case the U. S. became in-
volved in war, however, according to
Secretary Daniels. He admitted that
the government would not hesitate to
appropriate the submarine patents
and use them in building its own
submarines in time of war. Compensa-
tion would be given the patentees,
of course, or they could resort to the
courts—but after the government had
received the benefit of submersible
patents. The government, according
to Secretary Daniels, would not hesi-
tate to adopt such a policy, as a mat-
ter of defense in a time of national
peril, without regard to the contri-
butors' patent rights.

Secretary Daniels hopes that con-
gress will eventually authorize con-
struction by the government itself of
all of its submarines. It is now
building some on the Pacific coast, the
only government plant at present
equipped for submarine construction.
The use of the oil burning type.

"Spurring up" private contractors
on government submarine contracts is
another innovation promised by the
secretary. He will insist that con-
tracts given private concerns stipulate

quicker delivery. The secretary be-
lieves that in the past contractors
have been slow about completing the
government craft. He cites the in-
stance of the ill-fated F-4, which sank
last March outside Honolulu harbor.
This boat was only two years old,
but five years elapsed before Congress
authorized her construction and the
date, in 1913, when she was delivered
to the navy.

On the other hand, the Fore River
Construction Company, of Massachu-
setts, has just completed ten electric
submersibles for one of the allies in
the record time of eight months. They
were ordered in January and are now
being rushed to the ship yards at
Quincy, Mass. By agreement with
Charles M. Schwab, who took the or-
der for one of the allies, the boats
will be held in American waters until
after the war.

(Political Advertisement)

To The Republican Voters:

Some weeks prior to the time for
filing petitions for the nomination for
the office of prothonotary some of
my friends approached me with the
proposition that I be a candidate for
the office. In submitting the propo-
sition to me it was pointed out that
there was a strong, and growing sen-
timent in Clearfield county against
the two term proposition for this of-
fice. With no malice toward any man,
no revenge to be sought for any per-
sonal or political offense, I consented
to make the campaign after consulta-
tion with many active workers in the
party. From that time on I have
night and day endeavored to see as
many of the voters as was possible.

In making my campaign I have re-
frained absolutely from engaging in
personal attacks on my opponent. His
political mistakes are no business of
mine, his family relations do not in
any manner concern me. Neither do
his religious inclinations in any way
direct my attitude towards him. That
is his business, as my family affairs
and religious preferences are mine.
For the information of those voters
who do not personally know me I de-
sire at this time and in this manner
to say that I am a member of the
Presbyterian church and Sunday
school of Clearfield, and have been
for years. I am not bigotted in my
religious beliefs. Our constitution
grants freedom of religious belief as
one of our fundamental rights. I ex-
ercise mine and yield the same right
to everyone else.

I submit my candidacy to your con-
sideration and ask for your vote on
the following propositions: I am a
Republican and always have been. I
have had a school education which is
equal of the average business man
and along some lines such as account-
ing, etc. have taken special courses.
I have worked in the offices of one
of the largest and best organized
business concerns in the world.
I make this campaign on the absolute
pledge that if elected I will not under
any circumstances ask for or accept
a second term to the office.

J. M. GALLAHER,
Republican Candidate for Prothono-
tary.

LOCAL CONTRACTOR ROBBED BY "DIP" AT PHILIPSBURG

George Woods Victim of Slick Artist
—Now Minus \$135.

George Woods a contractor of East
End was robbed at the Philipsburg
station Monday evening, while wait-
ing for the train which arrives in
Clearfield about seven o'clock. Mr.
Woods had \$130 dollars in his pocket
with which he was to pay some of his
workmen at the Harbison-Walker
brick yard at Wallaceton.

He left Clearfield on the 1:15 train
and went to Philipsburg expecting to
return to Wallaceton that evening.
While waiting for his train, his purse
containing the money was taken from
his pocket. No trace of the thief has
been discovered yet.

WEDDING CAKE 35 YEARS OLD.

Cleveland, Sept. 16.—A. D. New-
man and his wife have what is believed to
be the oldest wedding cake in exist-
ence. It was made for their wedding
thirty-five years ago, looked so pretty
that they decided never to cut it.

visiting at the home of Mrs. L. M.
Ericson on Guelich avenue.

Mrs. Milo Lawhead and son Gus
and Mrs. Minnie Snoke and Mrs.
Harry Snoke left this morning for
an extended automobile trip to Wil-
liamsport, State College, and other
points.

Miss Lillie Wrigley returned yes-
terday to New Haven, Conn.

Miss Edith Blake, of Curwensville,
was shopping in town today.

Miss Jean Smith, of Curwensville,
is spending a few days in town with
friends this week.

John McQuillen the well known
electrician of Clearfield fell from a
right leg.

James Kephart of Winburne, can-
didate for county commissioner was
in town yesterday.

WAR NEWS OF ONE YEAR AGO TODAY.

Germany has suggested to
President Wilson, through Chan-
cellor Bethmann Von Hollweg, in
reply to an inquiry as to the pos-
sibility of making peace, that the
U. S. elicit from England, France
and Russia the terms under which
they would discuss peace.

The Russian army is nearing
Przemysl.

Austria is calling to colors all
men available, including many
previously rejected as unfit.

Italy orders all reserves in
Paris to report to the colors.

Germany denies English and
French reports of victories in
France.

ONE WEEK ONLY

The Best Range at the Right Price
The Aluminum Cooking Ware FREE

ONE CENT A MEAL FOR ONE YEAR.

In almost every house there are practically
one thousand meals a year prepared on the
stove. Many people hesitate about paying five
or ten dollars more to secure a reliable range—
one that will cook these thousand meals a year
with the least trouble and at the lowest cost. If
you should add one cent to the cost of every
meal for the first year only, you would soon
make up the difference between the cheap range
and the range that will last a lifetime.

Suppose your cheap range uses one cent's
more of fuel in cooking each meal, or only three
cents' worth more a day. In one year this range
has cost you ten dollars extra—ten dollars more
for fuel than the better range. Every year
means that much more money burned up.

Suppose the better range does cost ten dol-
lars more at first than the cheap one. The ex-
tra cost is nothing—it amounts to only one cent
a meal. It will save you one cent a meal in fuel
alone. In one year it will save the extra cost,
and in ten years it will save you one hundred
dollars, not counting what you save missing big
repair bills.

You can open a bank account in your kitchen
by buying a South Bend Malleable Range.

An expert demonstrator from the factory
will be at our store for one week. He will tell
you about the Patented Aluminum-Fused Cop-
per-Bearing Flues. And prove to you why it is
the best range made.

Picture Bride Leading Popularity in
Japan—New Photography To
Test, Navy Seaside Editor

BY BOND P. GEDDES
(United Press Staff Correspondent)

Washington, Sept. 16.—National changes in the type of new submarines to be built for Uncle Sam's navy are being worked out by the chief naval constructor. Navy officials admitted today that some new wrinkles in submarine building probably would be adopted when Congress authorizes the proposed new fleet of undersea craft which will represent the latest thought in such construction.

Special attention is being given, Secretary Daniels states, to the question of submarine construction. A corps of experts at home and abroad are conducting a campaign to build a submarine in the next new U. S. submarine.

Electric propulsion is the latest in submarine building, according to the present determination of the naval constructor. It is probable that electric motors will be used in the new submarines. Naval authorities are contemplating diverting the present fleet of

submarines of gas engines and substituting electric power.

One difficulty in the way of U. S. naval progress in building submarines is the "patent monopoly" which confines this government to one type of submersible. This is the Lake type. While other types with some most desirable features are being built, Secretary Daniels says the government never has been able to reach satisfactory terms with patentees of other submarines than the Lake variety. Negotiations are in progress, however, by which the government may be able to adopt some of the more desirable features of other patterns.

The government would not be barred from using the other submarine patents in case the U. S. became involved in war, however, according to Secretary Daniels. He admitted that the government would not hesitate to appropriate the submarine patents and use them in building its own submarines in time of war. Compensation would be given the patentees, of course, or they could resort to the courts—but after the government has received the benefit of submersible patents. The government, according to Secretary Daniels, would not hesitate to adopt such a policy, as a matter of defense in a time of national peril, without regard to the contract and patent rights of patentees.

Secretary Daniels hopes that Congress will eventually authorize construction by the government itself of all of its submarines. It is now building some on the Pacific coast, the only government plant at present equipped for submarine construction. The use of the oil burning type.

"By government private contractors on government submarine contracts is another innovation promised by the secretary. He will insist that contracts given private concerns stipulate

quicker delivery. The secretary believes that in the past contractors have been slow about completing the government craft. He cites the instance of the ill-fated P-4, which sank last March outside Honolulu harbor. This boat was only two years old, having been commissioned in 1913, but five years elapsed before Congress authorized her construction and the date, in 1912, when she was delivered to the navy.

On the other hand, the Fore River Construction Company, of Massachusetts, has just completed ten electric submersibles for one of the allies in the record time of eight months. They were ordered in January and are now lying, finished, in the ship yards at Quincy, Mass. By agreement with Charles M. Schwab, who took the order for one of the allies, the boats will be held in American waters until after the war.

(Political Advertisement)

To The Republican Voters:

Some weeks prior to the time for filing petitions for the nomination for the office of prothonotary some of my friends approached me with the proposition that I be a candidate for the office. In submitting the proposition to me it was pointed out that there was a strong and growing sentiment in Clearfield county against the two term proposition for this office. With no malice toward any man, no revenge to be sought for any personal or political offense, I consented to make the campaign after consultation with many active workers in the party. From that time on I have night and day endeavored to see as many of the voters as was possible.

In making my campaign I have refrained absolutely from engaging in personal attacks on my opponent. His political mistakes are no business of mine, his family relations do not in any manner concern me. Neither do his religious inclinations in any way direct my attitude towards him. That is his business, as my family affairs and religious preferences are mine. For the information of those voters who do not personally know me I desire at this time and in this manner to say that I am a member of the Presbyterian church and Sunday school of Clearfield, and have been for years. I am not bigotted in my religious beliefs. Our constitution grants freedom of religious belief as one of our fundamental rights. I exercise mine and yield the same right to everyone else.

I submit my candidacy to your consideration and ask for your vote on the following propositions: I am a Republican and always have been. I have had a school education which is equal of the average business man and along some lines such as accounting, etc. have taken special courses. I have worked in the offices of one of the largest and best organized business concerns in the world. I make this campaign on the absolute pledge that if elected I will not under any circumstances ask for or accept a second term to the office.

J. M. GALLAHER,
Republican Candidate for Prothonotary.

LOCAL CONTRACTOR ROBBED BY "DIP" AT PHILIPSBURG

George Woods Victim of Stick Artist
—Now Minus \$130.

George Woods a contractor of East End was robbed at the Philipsburg station Monday evening, while waiting for the train which arrives in Clearfield about seven o'clock. Mr. Woods had \$130 dollars in his pocket with which he was to pay some of his workmen at the Harbison-Walker brick yard at Wallacetown.

He left Clearfield on the 11:15 train and went to Philipsburg expecting to return to Wallacetown that evening. While waiting for his train, his purse containing the money, was taken from his pocket. No trace of the thief has been discovered yet.

WEDDING CAKE 35 YEARS OLD.

ONE WEEK ONLY

The Best Range at the Right Price
The Aluminum Cooking Ware FREE

ONE CENT A MEAL FOR ONE YEAR.

In almost every house there are practically one thousand meals a year prepared on the stove. Many people hesitate about paying five or ten dollars more to secure a reliable range—one that will cook these thousand meals a year with the least trouble and at the lowest cost. If you should add one cent to the cost of every meal for the first year only, you would soon make up the difference between the cheap range and the range that will last a lifetime.

Suppose your cheap range uses one cent's more of fuel in cooking each meal, or only three cents' worth more a day. In one year this range has cost you ten dollars extra—ten dollars more for fuel than the better range. Every year means that much more money burned up.

Suppose the better range does cost ten dollars more at first than the cheap one. The extra cost is nothing—it amounts to only one cent a meal. It will save you one cent a meal in fuel alone. In one year it will save the extra cost, and in ten years it will save you one hundred dollars, not counting what you save missing big repair bills.

You can open a bank account in your kitchen by buying a South Bend Malleable Range.

An expert demonstrator from the factory will be at our store for one week. He will tell you about the Patented Aluminum-Fused Copper-Bearing Flues. And prove to you why it is the best range made.
